

LET'S TALK TRY OUTS

HEY RÄKI FAM, COACH CARLY HERE!

Tryouts are a time to showcase your skills and establish relationships. While it can be an intimidating time, it's important to remember that mistakes are going to happen, so **do the best you can!**

At the end of the day, if you can walk away and confidently say you worked as hard as you could, you can **hold your head up high**. Your response mentally and physically are the biggest tells to coaches. So, if they can see you going hard with no regrets, it's hard to say no to someone who looks unstoppable!!
