TOURNEY TIPS W/ RAKI DIRECTOR COACH CARLY!

Trust yourself & the people around you! The more you trust yourself & your teammates, the easier it will be to remain focused and confident in high pressure situations. How can you build trust?

1. Celebrate little wins you & your team have throughout the match. Lift people around you up!
2. Be consistent in the way you act as a teammate & how you manage yourself on the court. It's way easier to play when you & your teammates know what to expect!
3. Get to know each other! The better I know how my teammates play, the easier it will be to play WITH them!

Remember: The RAKI FAM is cheering you on!!
